COMPANY PROFILE 公司简介

Jinhua Haode Technology Co., Ltd. is a professional manufacturer for hand tools that produces aluminum alloy spirit levels. The former factory name “ Yongkang Shiya Wanxin Tools Factory” was founded since 1998. The factory is located in Lingxia Industrial Functional Zone, Jinhua City, Zhejiang Province now. Near to Hangjinqu Expressway, close to Hangzhou Xiaoshan International Airport, Shanghai port, Yiwu port and Ningbo Port, with convenient transportation, developed communication, unique geographical, and centralized hardware industry in this city.

Jinhua Haode Technology Co., Ltd. is dominated by aluminum alloy spirit level, and also provides many kinds of industrial measuring tools with outstanding quality and various designs, such as triangle ruler, combination squares, aluminum speed squares, punching ruler, scraper level, torpedo level, digital spirit level and other products. Since the establishment of the company, it has been honored by its stable quality and exquisite craftsmanship. It has a long history of production and strong technical force. The products are novel in design, exquisite in craftsmanship, professional in style, complete in specifications, timely in delivery and excellent in quality, and are well received by domestic and foreign customers.

The products are widely sold, and have been sold all over the country and Europe (such as the United Kingdom, Germany, Italy, Spain), America (Brazil, Mexico, Argentina), Africa (South Africa), Southeast Asia (United Arab Emirates, Indonesia, Thailand, Malaysia, Japan) and many other Customers in countries and regions have business dealings. We will also continue to develop more and wider domestic and international markets.

Jinhua Haode Technology Co., Ltd. will always adhere to the consistent tenet of "relying on technology, market-oriented, quality for survival, and reputation for development", based on the market, pioneering and innovating, and try our best to make outstanding achievements for the development of hardware tools in China .

High Quality Level Ruler

Professional measurement tool solutions

WX-2021F Multi-functional foldable level

折叠水平尺

NEW

AESTHETIC design

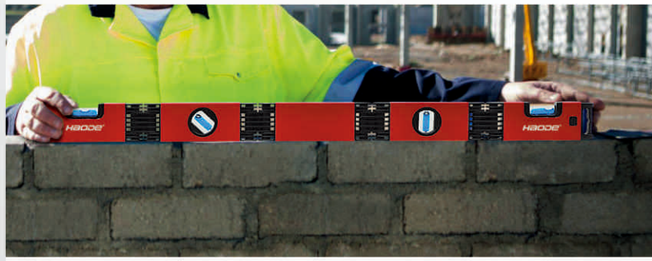

Product description

Multi-functional foldable level, which can be folded as a rectangle-shape block for daily storage and a regular straight level ruler for versatile jobs. It is made of a high-quality aluminum profile processed by oxidation that avoids rust and eases scratching. ABS connectors and TPR endcaps are the double armor for accidental drop and long-term storage. It allows you to fold it to any angle to bypass obstacles and measure multiple angles simultaneously, such as for pipes, stairs and corners, folding or extending to use are available.

0.5mm/m

shockproof end caps

UV resistant

strong magnet

Overview table
